

Abin Thaha Azees

Associate Project Manager

WORK EXPERIENCE

Ernst & Young, India

02/2022 – Present

Associate Project Manager

- Provide front-end technical direction, standards, and mentoring across delivery teams.
- Partner with stakeholders to define scope, timelines, and deliverables while balancing quality and risk.
- Improve code quality, performance, and workflows through reviews, tooling, and pragmatic best practices.
- Align design, engineering, QA, and clients for smooth execution and clear communication.
- Evaluate emerging tools and frameworks; support hiring through structured technical interviews.

Kloud9, New York, NY

05/2021 – 01/2022

Senior Software Engineer

- Delivered solutions across the SDLC—from discovery and feasibility through implementation and rollout.
- Produced clear documentation, diagrams, and code to explain systems to peers and stakeholders.
- Recommended process and policy improvements informed by systems analysis and production feedback.
- Supported engineers with coaching, pairing, and knowledge sharing to raise team capability.

Ernst & Young, India

02/2019 – 05/2021

Senior Software Engineer

- Designed efficient architectures and delivery workflows tailored to client constraints.
- Selected frameworks and libraries aligned to requirements and long-term maintainability.
- Mentored junior developers and contributed across multiple initiatives with consistent quality.
- Stayed current with industry trends and applied practical improvements to engineering practices.

QBurst Technologies, India

07/2015 – 01/2019

Senior Software Developer

- Built responsive, SEO-aware web applications from layout through integration with back-end services.
- Integrated data from multiple services and databases with a focus on reliability.
- Owned testing, dev test reporting, and peer reviews to keep releases predictable and low-defect.

PROJECTS

Upcomer replication

Hobby

UI clone · React / static hosting

- Recreated UI patterns and interactions; published demo on GitHub Pages with source available on GitHub.

Movie listing

Hobby

Movies · data-driven UI

- Built a browsable movie experience with live demo and documented source repository.

CONTACT

SKILLS

Hard skills

- React, Redux & Redux Toolkit
- Angular 2+ (through 14)
- TypeScript, JavaScript (ES5/ES6)
- HTML5, CSS3, Sass / SCSS
- Node.js & Express
- Vue & Vuex
- RxJS, Material UI, Bootstrap
- MongoDB & SQL

Tools & platforms

- Git, Azure DevOps, Jira, TFS
- npm, Yarn, Webpack, Gulp, Grunt
- GitHub, Azure, AWS, Heroku, Netlify
- Ubuntu, Windows

Integrations & analytics

- Facebook, Google, Twitter, Microsoft integrations
- Google Analytics

Delivery & leadership

- Cross-functional execution & roadmaps
- Stakeholder communication & dependency management
- Mentoring, code review, and technical interviewing
- Agile / iterative delivery practices

OTHER

- GitHub Copilot Certification Program (GH-300)
- Scrum Foundation Professional Certification (SFPC)
- Google Analytics Certification
- Microsoft 365: Fundamentals
- Microsoft Azure: Fundamentals
- Programming in HTML5 with JavaScript and CSS3

Why So Serious

Hobby

Browser game

- Implemented an interactive game experience with hosted demo and open-source codebase.

Scroll parallax & Random balls

Hobby

Motion & Canvas experiments

- Explored motion and canvas rendering techniques with small, sharable demos on GitHub Pages.
