Website

SUMMARY

Web developer with extensive experience designing and developing user interfaces and integrating with backend systems. Focus on performance, clean architecture, and collaboration across design, backend, and QA. Experienced in mentoring teams, technical leadership, and delivering responsive, well-documented applications.

EXPERIENCE

Senior Technical Lead

Feb. 2022 – Present

Ernst & Young

- Lead front-end direction, standards, and mentoring for developers; collaborate with stakeholders on scope, timelines, and deliverables.
- Drive code quality, performance, and reviews; evaluate new tools and frameworks; partner with design, backend, and QA for delivery.
- Engage clients on requirements and feedback; conduct technical interviews.

Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript, Angular 14, React, Redux, Redux Toolkit, Axios, React Router.

Senior Software Engineer

May 2021 – Jan. 2022

Kloud9

- Delivered software through requirements analysis, SDLC practices, documentation, and clear communication with users.
- Improved systems through analysis and recommendations; supported peers with coaching and knowledge sharing.

Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript, Angular 4/7, React, Redux.

Senior Software Engineer

Feb. 2019 – May 2021

Ernst & Young

- Designed efficient architectures and workflows; selected frameworks aligned to client needs.
- Mentored junior developers, conducted code reviews, and resolved technical blockers.

Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript, Angular 7, React, Redux, React Router.

Senior Software Developer

July 2015 – Jan. 2019

QBurst Technologies

- Built SEO-friendly, responsive web applications from layout through integration with backend services and data sources.
- End-to-end testing and dev test reporting before client delivery; peer code reviews and sharing of best practices.

Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript, React, Redux, Redux Toolkit, Reach Router.

SKILLS

Frameworks	Angular 2+, React, Redux, Redux Toolkit, Node.js, Express, Vue.js, Vuex, RxJS
Languages	HTML5, CSS3, JavaScript (ES5/ES6), TypeScript, JSX/TSX, SASS/SCSS, SQL, MongoDB
UI / tooling	Bootstrap 3/4, Material UI, Webpack, Gulp, Grunt
DevOps / deploy	Git, TFS, Azure DevOps, GitHub, Azure, AWS, Heroku, Netlify
Other	Jira, NPM, Yarn, Ubuntu, Windows; social/analytics integrations (e.g. OAuth providers, Google Analytics)

CERTIFICATIONS

- Scrum Foundation Professional Certification (SFPC)
- Google Analytics Certification
- Microsoft 365: Fundamentals
- Microsoft Azure: Fundamentals
- Programming in HTML5 with JavaScript and CSS3

SELECTED PORTFOLIO

Personal dashboard (React, no external UI plugins): abinthaha.github.io/Dashboard · github.com/abinthaha/Dashboard
Sample projects referenced on the site: KTM Challenge, Upcomer replication, movie listing app, game and animation demos (scroll parallax, random balls), and similar hobby experiments.

SERVICES (CONSULTING)

Web development from scratch or maintenance; responsive design; UX-focused and optimized front ends; documentation and clean code; team mentoring and technical guidance.
